ENTERTAINMENT SHOWS

CUSTOMIZATION AND INTERACTIVITY

wtvision.com

ENTERTAINMENT SHOWS

Studio CG can be entirely **customized** for your special events and entertainment shows.

Having **Studio CG** as your platform of choice will dramatically shorten your project **development time**.

As a very **flexible software**, Studio CG is ready for any challenge, even if we are talking about a complete TV Show with a deep level of **integration** and **automation**. With over 100 plugins, Studio CG controls **graphics, lights, sound, voting systems, timers** or whatever you may want to add!

Complex **game mechanics/scoring systems** can also be developed in Studio CG.

END-TO-END COVERAGE

wTVision makes it easy!

Our services cover:

- Project requirements analysis
- Contest/Game rules definition
- Project development (plugins, mobile apps development, among others)
- User interface development
- Graphics design and implementation
- Live operation service

INTEGRATION & AUTOMATION

Being a very flexible software with over 100 plugins, Studio CG is ready for any challenge.

VOTING SYSTEMS

Integrates information from different voting systems (e.g. receiving live audience feedback).

MULTIPLE OUTPUTS

Controls multiple outputs simultaneously for video walls and on-air graphics.

REAL-TIME FEEDBACK

Supplies real-time lights, scoring or video-wall feedback, based on the contestants' responses, in real time.

PHONE CALLS AND SMS

Integrates with phone operators, receiving different voting types and managing the information in real time.

EXTERNAL PERIPHERALS

Controls external peripherals such as clocks, buzzers and lights.

INTERACTIVITY

Brings more interactivity to TV Shows, giving the host the freedom to control graphics from mobile devices.

Boost your entertainment show!
